Passionate Computer Science Engineering Student interested in Full Stack Development, Software Development and Cloud Computing. Dedicated, diligent, effective at communicating, and very adaptive to work. Always eager to learn new skills and technologies.

Projects

E-commerce store

- A responsive e-commerce store using React and Node.js, featuring Stripe integration for secure payments.
- The store will offer seamless navigation, a user-friendly interface, and efficient product management.
- The project aims to deliver a secure, and engaging online shopping experience.

My-Blog

- A responsive blog page using React to provide a seamless user experience with authentication.
- The design focuses on clean aesthetics, intuitive navigation, and mobile compatibility.
- The project aims to deliver a interactive blogging environment.

Snake-game

- A classic Snake game using React for a dynamic and interactive user experience.
- Key functionalities include game start/pause/reset options and increasing difficulty levels as the snake grows

Portfolio website

- A portfolio website crafted using Three.js and React features an immersive and interactive 3D experience that showcases the creator's work and skills.
- Utilizing Three.js, the site incorporates dynamic 3D objects and animations, providing a visually engaging environment.
- React facilitates a smooth, responsive user interface, ensuring seamless navigation and interaction.

Experience

Flabs
